DETAILED ACTION

1. Claims 1-6 and 8 are pending.

Response to Amendment

2. Applicant's amendment filed 9/22/03 in response to the previous Office Action (Paper No. 11) is acknowledged. Rejection of claims 1-6, 8 and 13 under 35 U.S.C. § 112, second paragraph (Paper No. 11, paragraphs 4a-4c) have been obviated.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention: In claim 1, the linker "P" in formula I is not clear for two reasons:

a. P has two sets of definitions. The first definition is the narrow and recites: "B is represents a pyridyl ring optionally, linked to ring A by C1-4 alkyl or C1-4 alkoxy chain linking the 2-position of ring B with the carbon atom alpha to X2" and the second set of the definition is broader "P is (CH₂)_n- wherein n = 0, 1,2, or P is an alkene or alkyne chain....up to C9 heteroalkyl." Which definition is applicant's intention?

b. The second problem has to do with the linker P. Is P attached to the N of the piperazinyl ring or is it attached to the carbon of the piperazinyl ring? Is P floating on

Art Unit: 1624

rings A and B? Note that if applicants intend the narrower definition, then P can't float, but if applicants intend the broader definition then P can float.
